

FOREWORD

The Design Guide (DG) series of documents is issued under the standard design medium by the Engineering Division, Engineering and Construction Directorate, Office of the Chief of Engineers, U.S. Army.

This guide governs design of U.S. Army Reserve Facilities. Included are the training center building, organizational maintenance shops, area maintenance support activities, and direct support and general support maintenance shops.

This guide provides planning and design guidance, discussed separately in the form of example sketches, which establish concept alternatives for executing project designs.

This guide is applicable to all new construction projects as well as projects involving modernization of existing facilities.

Development of this guide was under the direction of the Architectural Section, Architectural and Building Systems Branch of the Engineering Division, and is based on the results of an architectural services contract with the firm of Associated Space Design, Inc., Atlanta, Georgia, contract number DACA 87-83-C-0032.

Material related to functional needs has been developed in conjunction with, and approved by, the Office of the Chief, Army Reserve, and the Office, Chief of Engineers.

Distribution of this guide is limited. Additional essential copies are available from the OCE Publications Depot, 2803 52nd Ave., Hyattsville, MD 20781.

Users are invited to send comments and suggested improvements to CDR USACE (DAEN-ECE-A) WASH, DC 20314, with an information copy to HQDA (DAAR-CM), Alexandria, VA 22331.

FOR THE CHIEF OF ENGINEERS:

WILLIAM N. MCCORMICK, JR.
Chief, Engineering Division
Directorate of Engineering and
Construction
